# Professional Skill Development Programme in Patient Care Management

---

## Programme Overview

---

Step into the heart of healthcare with this foundational training in patient care. Designed for aspiring healthcare workers and support staff, this programme blends medical knowledge with hands-on skills to ensure safe, pathetic, and high-quality patient care across hospitals, clinics, and home care settings.

Whether you aim to become a care coordinator, hospital assistant, or health executive, this one-year programme is your launchpad into the growing healthcare industry.

## Key Skills You'll Master

- 
- Assisting in basic patient care (hygiene, feeding, mobility)
  - Monitoring vital signs: blood pressure, pulse, temperature
  - First aid & emergency response techniques
  - Accurate documentation & reporting of patient data
  - Cultivating compassionate care, empathy & communication
  - Infection control & hygiene best practices
  - Scheduling patient appointments & coordinating services

## Beyond Clinical: Value-Added Training

---

- *IELTS Coaching* – For global healthcare career pathways
- Personal Development Training
- ◆ Interview preparation & effective communication
- ◆ Stress & time management techniques
- ◆ Workplace etiquette & grooming
- ◆ Confidence & personality development

# Career Opportunities

---

- ◆ Patient Care Coordinator
- ◆ Health Care Assistant
- ◆ Telehealth Support Staff
- ◆ Healthcare Customer Care Executive
- ◆ Hospital Floor Manager
- ◆ Quality & Patient Safety Officer

## Where Can You Work?

---

- ◆ Hospitals
- ◆ Home Healthcare Agencies
- ◆ Telemedicine & Health Tech Startups
- ◆ Clinics & Nursing Homes
- ◆ Health Insurance Companies
- ◆ Rehabilitation & Wellness Centres

## Who Can Apply?

---

- 10th or 12th Pass
- Graduates from any stream
